Subject Index

■ a

abdominal pain, May, p. 104
abortions, spontaneous, and chromosome studies (*tip*), May, p. 135
acetohexamide, in diabetic therapy, *April, p. 129
achalasia, and esophageal bougienage, *April, p. 98
acid-base changes with exchange transfusion (*tip*), June, p. 157
acidosis, correction in the collapsed child (*tip*), April, p. 171
ACTH in myocardial infarction (*tip*), March, p. 169
adenocarcinoma of rectum (*info pl*), February, p. 138
adolescent goiter, *April, pp. 91-96
adrenal adenomas, relation to aldosteronism in hypertension (*tip*), May, p. 137
adrenal corticosteroids
—antibody formation and (*info pl*), March, p. 143
—in collagen diseases (*tip*), February, p. 165
—in typhoid therapy, *January, p. 98
adrenal hemorrhage during anticoagulant therapy (*tip*), March, p. 179
adrenalectomy, for advanced mammary cancer (*tip*), March, p. 175
aerophagia (*info pl*), February, p. 137
airway fracture, *March, p. 138
alcoholic, office management, *April, pp. 102-109
aldosteronism, primary, as a cause of "essential" hypertension (*tip*), May, p. 137
alkylating agents, in malignant effusions (*tip*), February, p. 169
amebic colitis, fulminating (*tip*), June, p. 145
amphotericin B
—in treatment of histoplasmosis, *April, p. 126
—in coccidioidomycosis (*info pl*), May, p. 129
amputation, of lower extremity for arteriosclerosis (*tip*), May, p. 145
amylase, significance of low values (*info pl*), April, p. 137
amyloidosis, the Evans blue test in, January, p. 90
analgesics, in intractable pain, *January, p. 113

anatomy
—cerebral circulation, *April, p. 80
—epidural space, *May, p. 87
—groin hernia, *May, p. 115
anemia
—gastrectomy leading to (*tip*), May, p. 141
—iron deficiency (*tip*), January, p. 127
anesthesia in proctologic surgery, *May, p. 95
angiocardiography, pressure responses during (*tip*), February, p. 181
anomalous pulmonary venous drainage, *March, p. 111
antibodies
—maternal, in erythroblastosis fetalis, *April, p. 111
—thyroglobulin, in lymphocytic thyroiditis, *April, p. 95
anticoagulant therapy
—adrenal hemorrhage in (*tip*), March, p. 179
—role in stroke prevention (*tip*), April, p. 167
antidepressants, combination therapy, May, p. 109
antitoxin, tetanus (*tip*), April, p. 173
aortic aneurysms, February, p. 135
aortic insufficiency, comparison of blood pressure in arm and leg, May, p. 86
aponeurosis
—of external oblique muscle, anatomy, *May, p. 115
—of transversus abdominis muscle, anatomy, *May, p. 116
appendicitis in leukemia (*tip*), February, p. 177
appendix, preservation of internal oblique muscle for high-lying, *April, p. 127
arcus senilis, incidence and relation to serum cholesterol (*tip*), April, p. 163
arrhythmias, hemodynamic effect of (*tip*), June, p. 149
arterial hypoxemia in emphysema (*tip*), January, p. 147
arterial insufficiency, venous bypass grafts (*tip*), March, p. 175
arteriosclerosis, amputation of lower extremity in (*tip*), May, p. 145
arteriovenous transfusion syndrome in newborn twins, *March, p. 141
arthritis, of C1-C2 and C2-C3 intervertebral facets, *June, p. 94
artificial intracorporeal heart (*tip*), June, p. 145
aseptic meningitis, in Coxsackie B infections (*tip*), May, p. 147
aseptic techniques, in patient care, *June, p. 104
aspiration pneumonitis, *March, p. 140
assisted ventilation, *February, p. 89
assisted ventilation, in respiratory distress syndrome (*tip*), May, p. 137
ataxia-telangiectasia syndrome (*tip*), January, p. 131
atherosclerosis, cerebral, *April, p. 84
atlantoaxial articulation, arthritis of, *June, p. 94
atrial septal defect, *March, p. 106, p. 112
autoimmunity, and thymus in relation to Hodgkin's disease, April, p. 117

■ b

backache, psychologic factors in, *January, pp. 91-94
bacteriologic studies with soap (*tip*), January, p. 143
Batson's plexus, *May, p. 87
bed rest for the dilated heart (*tip*), May, p. 133
beta hemolytic streptococci, transportation of cultures (*tip*), June, p. 151
biopsy, needle in thyroid disease, *April, p. 96
bladder tumors, calcification (*tip*), March, p. 171
bougienage, esophageal, *April, pp. 97-101
brain-damaged children, therapy programs (*ed*), April, p. 75
breast cancer
—adrenalectomy in (*tip*), March, p. 175
—hypothyroidism and (*tip*), February, p. 175
—in situ (*tip*), June, p. 151
—mammographic survey (*tip*), May, p. 151
breathing exercises in bronchitis and emphysema (*tip*), February, p. 187
bronchiectasis treatment (*info pl*), May, p. 129
bronchiolitis, tracheotomy in (*tip*), February, p. 189
bulbospinal paralysis and ECHO 4 virus (*tip*), February, p. 179
burns, use of gamma globulin (*tip*), April, p. 175

■ C

calcification in bladder tumors (*tip*), March, p. 171
calcium
—disorders and associated neurologic phenomena, *March, p. 94
—serum analysis, routine (*tip*), January, p. 127
—stones (*info pl*), May, p. 129
cancer
—chemotherapy in childhood (*tip*), April, p. 179
—in situ, of breast (*tip*), June, p. 151
—lung, in the young (*tip*), March, p. 173
—mammary (*tip*), February, p. 175; (*tip*) March, p. 175; (*tip*) May, p. 151
—thyroid, surgery for (*tip*), June, p. 157
carbon dioxide tension, *February, p. 89
carcinoid tumors and serotonin physiology (*tip*), February, p. 165
carcinoma
—cervical (see *vaginal cytology*)
—endometrial, progestational agents for (*tip*), June, p. 153
—gallbladder (*info pl*), March, p. 145
—in situ, of breast (*tip*), June, p. 151
cardiac
—contusion, diagnosis and therapy, *March, p. 136
—murmurs, regurgitant (*tip*), January, p. 137
—murmurs, straight back syndrome (*tip*), February, p. 171
—neurosis, *May, p. 101
—output, in patients with varicose veins, March, p. 98
cardiovascular hemodynamics in pregnancy (*tip*), January, p. 139
carotid body tumors (*tip*), April, p. 163
Carvallo's sign (*tip*), January, p. 137
cerebellar degeneration, subacute parenchymatous, *June, p. 98
cerebellar syndromes, with extracerebral malignancy, *June, p. 98
cerebral palsy, problems of diet (*tip*), April, p. 177
cerebral syndromes, with nonmetastatic malignancy, *June, p. 97
cerebrovascular insufficiency, pathophysiology, *April, p. 78
cervical arthritis, of the intervertebral facets, *June, p. 94
chemotherapy of childhood cancer (*tip*), April, p. 179
chest (see also *thoracic*), penetrating injuries (*tip*), May, p. 143
Chiari's disease (*tip*), March, p. 185
chloramphenicol, in typhoid therapy, *January, p. 98
chlorophyl, in treatment of halitosis (*info pl*), April, p. 135
chlorpropamide, in diabetic therapy, *April, p. 129
cholangiography (see *operative cholangiography*)
choledochal cysts (*tip*), March, p. 173
chorea, Huntington's, in childhood, January, p. 94
chorionic gonadotropin
—in obesity (*info pl*), February, p. 137
—in pregnancy testing, *January, p. 83
chromosome studies on spontaneous abortions (*tip*), May, p. 135
cineradiography, esophageal, use in localization of parathyroid adenomas (*tip*), May, p. 143
cingulotomy, in pain control, *January, p. 118
circle of Willis, anatomy, *April, p. 80
circulation, cerebral, *April, p. 80
cirrhosis, zinc metabolism in (*tip*), January, p. 133
cleft palate speech in the absence of cleft palate, *February, pp. 93-98
cleft palate treatment, *February, p. 98
climacteric, psychologic changes in, *May, p. 103
clinical pharmacology (*ed*), May, p. 77
coagulation disorders, role of platelets (*tip*), June, p. 147
coarctation of the aorta, *March, p. 113
coccidioidomycosis (*info pl*), May, p. 129
colitis, fulminating amebic (*tip*), June, p. 145
collagen diseases, treatment (*tip*), February, p. 165
coma, due to respiratory insufficiency, *February, p. 88
congenital aganglionic megacolon, *February, p. 85
congenital cutaneous hemangiomas (*tip*), February, p. 173
congenital diaphragmatic hernia, *February, p. 81; (*tip*) March, p. 177; (*tip*) April, p. 175
congenital heart disease in patients over 40 years of age, *March, pp. 105-116

congenital rubella
—epidemiologic aspects (*ed*), June, p. 75
—syndrome (*tip*), January, p. 129; (*tip*) March, p. 181
coronary
—occlusion, operative approach (*tip*), May, p. 143
—vasodilators (*info pl*), June, p. 121
corticosteroids (see *adrenal corticosteroids*)
cough mixtures (*info pl*), March, p. 145
Coxsackie B infections (*tip*), May, p. 147
crippled children, problems of diet and nutrition (*tip*), April, p. 177
cystic fibrosis
—meconium ileus in, *February, p. 85
—progress in treatment (*tip*), June, p. 161
cystic medionecrosis, in Marfan's syndrome (*tip*), January, p. 143
cysts
—choledochal (*tip*), March, p. 173
—lung, *June, p. 78
—of semilunar cartilages (*tip*), January, p. 133
cytology, vaginal, after radiation therapy, *February, p. 114

■ d

dactinomycin, in cancer chemotherapy (*tip*), April, p. 179
deficiency states arising in infants on synthetic foods (*tip*), January, p. 135
demographic characteristics of teen-age pregnancy (*tip*), February, p. 189
depression, *March, pp. 87-93
depressive illnesses, treatment with combined antidepressants, May, p. 109
diabetes mellitus
—aids in management, *May, p. 78
—diagnostic screening of high-risk population, *February, p. 118
—oral drug therapy, *April, p. 129
—x-chromosome abnormalities, *April, p. 95
diabetic retinopathy
—classification and description (*tip*), April, p. 183
—influence of low-fat diet (*tip*), May, p. 145
—pituitary stalk section in therapy (*info pl*), April, p. 135
diagnostic test, oral hormone for early pregnancy, *January, p. 78
dialysis
—in treatment of chronic uremia, *February, p. 129
—in treatment of intoxications, *February, p. 111
diaphragmatic hernia, congenital, *February, p. 81
diaphragmatic rupture, traumatic, *March, p. 137
diarrhea in Zollinger-Ellison syndrome (*tip*), February, p. 185; (*tip*) April, p. 177
diencephalic syndrome of infancy (*tip*), June, p. 155
diet, problems in crippled children (*tip*), April, p. 177
disinfecting the clinical thermometer (*tip*), June, p. 153
diuretic therapy, in refractory heart failure, *February, p. 101
Doman-Delacato treatment, for brain-damaged children (*ed*), April, p. 75
drainage of the pleural cavity, use of flutter valve, *January, p. 86
drugs (see specific names), oral therapy for diabetes, *April, p. 129
duodenal ulcer, bleeding (*tip*), March, p. 183

■ e

edema
—idiopathic (*tip*), May, p. 141
—of arm, post mastectomy (*tip*), June, p. 149
effects of buffering on bank blood (*tip*), March, p. 181
electrocardiography, hint to eliminate somatic tremor, April, p. 134
embolism, cerebral, *April, p. 88
emergency surgery in the neonate, *February, p. 78
emphysema, pulmonary
—arterial hypoxemia in (*tip*), January, p. 147
—use of respirator in, *February, p. 90
—venous return in (*tip*), June, p. 143
emphysema, subcutaneous or mediastinal, *March, p. 140

endometrial carcinoma, use of progestational agents (*tip*), June, p. 153
Entamoeba histolytica (*tip*), June, p. 145
enuresis, treatment (*tip*), February, p. 179
enzymology in myocardial infarction (*tip*), April, p. 183
epidemiology, hospital, *June, p. 106
epidural abscess of the spine, *May, p. 87
erythroblastosis fetalis, cause of death in, *April, p. 110
Escherichia coli, serotyping in urinary tract infections, January, p. 85
esophagus
—anomalies (*tip*), April, p. 179
—atresia, with tracheoesophageal fistula, *February, p. 78; (*tip*) April, p. 181
—cicatrizing esophagitis and bougienage, *April, p. 98
—cineradiography (*tip*), May, p. 143
—emetogenic rupture (*tip*), January, p. 139
—hiatus hernia in infancy and childhood (*tip*), March, p. 177; (*tip*) April, p. 175
—perforation (*tip*), January, p. 139; *March, p. 138
estrogens
—effects of deprivation, *May, p. 110
—role in therapy of menopause, *May, p. 110
ethacrynic acid in acute pulmonary edema (*tip*), January, p. 133
ethionamide, hepatic tolerance (*tip*), January, p. 149
Evans blue test in amyloidosis, January, p. 90
exchange transfusion, associated acid-base changes (*tip*), June, p. 157
exercise, in heart disease (*info pl*), January, p. 126
exfoliative cytology in pregnancy (*tip*), June, p. 159
external carotid arteries, anatomy, *April, p. 81

■ f

fasting, metabolic changes during (*tip*), March, p. 183
femoral hernia (see *hernia, groin*)
fibrothorax, as complication of hemothorax, *March, p. 138
fingernail, "red and white" changes in azotemia (*tip*), April, p. 177
flail chest, therapy, *March, p. 135
fluoroscopic measuring, May, p. 97
foramen of Bochdalek hernia (*tip*), April, p. 175
Fothergill's sign, May, p. 104
fracture
—of pelvis (*tip*), February, p. 183
—of ribs, *March, p. 135
—of tracheobronchial tree, *March, p. 138

■ g

gamma globulin
—in burn sepsis (*tip*), April, p. 175
—racial differences in serum levels (*tip*), May, p. 139
Gardner's syndrome (*tip*), May, p. 139
gastrectomy, as cause of anemia (*tip*), May, p. 141
gastric ulcer, rationale of operation, February, p. 104
gastrointestinal obstruction, congenital, February, p. 83
geriatric practice (*ed*), March, p. 77
germ-free dogs, strangulation obstruction in (*tip*), January, p. 141
Gestest as a diagnostic test for early pregnancy, *January, p. 78
globulin, tetanus immune (human) (*tip*), April, p. 173
glucagon, test for pheochromocytoma (*tip*), March, p. 169
goiter, adolescent and lymphocytic thyroiditis, *April, p. 91
gout, diagnosis (*info pl*), March, p. 145
graft slitting, of split-thickness skin grafts (*tip*), February, p. 185
groin hernia (see *hernia*)
Guillain-Barré syndrome, in nonmetastatic carcinoma of the lung, *June, p. 101

■ h

halitosis, causes and treatment (*info pl*), April, p. 135
headache, suboccipital secondary to arthritis of cervical intervertebral facets, *June, p. 94

heart disease
—congenital, in patients over 40 years of age, *March, p. 105
—idiopathic myocardial disease (*tip*), May, p. 133
—ischemic, surgical risk (*tip*), April, p. 165
—postpartal (*tip*), May, p. 135
hemangiomas, management of congenital cutaneous (*tip*), February, p. 173
hemorrhage
—intrathoracic, *March, p. 137
—postpartum, use of uterine pack (*tip*), March, p. 171
hemorrhoids, *May, p. 92
hemothorax, *March, p. 138
hepatic tolerance of ethionamide (*tip*), January, p. 149
hepatic vein thrombosis (Chiari's disease) (*tip*), March, p. 185
hernia, congenital diaphragmatic (*tip*), March, p. 177; (*tip*) April, p. 175
hernia, groin, anatomic and physiologic repair, *May, p. 115
hiatus hernia (see *esophagus*)
high-risk diabetes screening, *February, pp. 118-122
histoplasmin skin test, *April, p. 118
histoplasmoma, *April, p. 125
histoplasmosis, *April, pp. 118-126
Hodgkin's disease, autoimmunity and the thymus, April, p. 117
hormone treatment, postmenopausal (*info pl*), January, p. 125
hospital infection control, the physician's role, *June, p. 103
Huntington's chorea in childhood, January, p. 94
Hurst bougie, for esophageal bougienage, *April, p. 99
hyaline membrane disease (see *respiratory distress syndrome*)
hydroxybutyrate dehydrogenase (HBD) in myocardial infarction (*tip*), April, p. 183
hyperbilirubinemia, in premature infants, *June, p. 116
hypercalcemia
—etiology and clinical manifestations, *March, pp. 96-98
—found during routine serum testing (*tip*), January, p. 127
—idiopathic hypercalcemia of infancy (*tip*), February, p. 187; *March, p. 97
hyperoxaluria, primary (oxalosis) (*tip*), April, p. 173
hyperparathyroidism, primary (*tip*), January, p. 127
hypertension
—cerebrovascular disease in, *April, p. 86
—essential, primary aldosteronism in (*tip*), May, p. 137
hypertrophic pyloric stenosis (*tip*), February, p. 175
hypocalcemia, *March, pp. 94-95
hypogastric artery ligation (*tip*), February, p. 183
hypoglycemia
—in diabetic therapy, *May, p. 84
—in premature infants, *June, p. 113
hypokalemia (see *potassium*)
hypomagnesemia, neonatal (*tip*), January, p. 149
hypoparathyroidism
—after thyroidectomy (*tip*), April, p. 179
—suspected (*info pl*), February, p. 138
hypophosphatasia, *March, p. 98
hypothyroidism
—in breast cancer (*tip*), February, p. 175
—in lymphocytic thyroiditis, *April, p. 91
hysterectomy, vaginal for carcinoma in situ and pelvic relaxation (*tip*), April, p. 169

■ i

iatrogenic lesions following umbilical vein catheterization (*tip*), January, p. 141
idiopathic myocardial disease, use of prolonged bed rest (*tip*), May, p. 133
immune globulin (human), tetanus (*tip*), April, p. 173
immunization
—rabies (*info pl*), March, p. 143
—tetanus, passive (*tip*), April, p. 173
imperforate anus, *February, pp. 86-87

infection control, in hospitals, *June, p. 103
inguinal hernia (see *hernia, groin*)
inhalation therapy in the general hospital, *March, pp. 99-104
insecticide poisoning in children (*tip*), February, p. 173
insulin therapy, *May, p. 82
internal oblique muscle, preservation for high-lying appendix, *April, p. 127
intestine
—infarction, without mesenteric occlusion, March, p. 140
—obstruction, June, p. 102
—stenosis, secondary to thiazides with potassium (*tip*), May, p. 135
intoxications, management, *February, p. 105
intrathoracic hemorrhage, management, *March, p. 137
ischemia, cerebral, *April, p. 88

■ j

■ k

kidney preservation, for use in homotransplantation (*tip*), February, p. 183
Klippel-Trenaunay syndrome (*tip*), January, p. 135
Kveim test, in sarcoidosis (*tip*), January, p. 145

■ l

lactase deficiency syndromes, *March, pp. 117-119
lactic acidosis, in phenformin therapy, *April, p. 133
Laffont's sign, May, p. 104
leptomeningeal carcinomatosis, June, p. 96
leukemia, appendicitis in (*tip*), February, p. 177
lung
—cancer in the young (*tip*), March, p. 173
—cysts, surgical treatment of acquired, *June, p. 78
—infarction, surfactant production in (*tip*), June, p. 151
lymphangiography, postmastectomy (*tip*), June, p. 149
lymphocytic thyroiditis and adolescent goiter, *April, p. 91
lymphocytosis, relative (*info pl*), April, p. 137

■ m

McBurney incision, *April, p. 127
macroglossia, May, p. 90
malignancy, with nonmetastatic neurologic syndromes, *June, p. 96
Mallory-Weiss syndrome (*tip*), January, p. 139
mammography, survey for breast cancer (*tip*), May, p. 151
Marfan syndrome and pregnancy (*tip*), January, p. 143
mastectomy, swelling of arm after (*tip*), June, p. 149
meconium ileus, *February, p. 85
medical deprivation, social factors in (*tip*), June, p. 155
melanoma, malignant (*tip*), January, p. 143
meningitis, due to Mima polymorpha (*tip*), February, p. 181
menopause (see also *climacteric*), endocrine therapy in, *May, p. 110
mental health in pediatric practice (*tip*), May, p. 149
mental retardation
—dietary and nutritional problems in (*tip*), April, p. 177
—role of the physician, *April, p. 115
metabolic acidosis (see *acidosis*)
metformin, biguanide related to phenformin, *April, p. 132
methylmalonic acid (MMA), in vitamin B_{12} deficiency (*tip*), January, p. 147
Mima polymorpha meningitis (*tip*), February, p. 181
mitral valvotomy, in pregnancy (*tip*), May, p. 153
MK-665 (*ed*), May, p. 75
muscular dystrophy, treatment with anabolic steroids (*tip*), February, p. 189
mycobacterial infection, unclassified, in children (*tip*), June, p. 143
Mycobacterium kansasii (see *photochromogens*)

myocardial infarction
—enzymology in (*tip*), April, p. 183
—use of ACTH in (*tip*), March, p. 169
myringotomy, as office procedure (*info pl*), April, p. 137

■ n

needle biopsy, in thyroid disease, *April, p. 96
neonatal hypomagnesemia (*tip*), January, p. 149
nerve blocks, in management of intractable pain, *January, p. 114
neurologic syndromes, nonmetastatic, with extracerebral malignancies, *June, p. 96
neurosurgical procedures in pain therapy, *January, p. 116
neurotomy, peripheral, in management of intractable pain, *January, p. 117
nonmetastatic neurologic syndromes with extracerebral malignancies, *June, p. 96
nosocomial infections, *June, p. 103
nutrition
—clinical, an exciting science (*ed*), April, p. 77
—problems in crippled children (*tip*), April, p. 177

■ o

obesity
—cardiac pathology in (*tip*), May, p. 133
—metabolic changes during fasting (*tip*), March, p. 183
—psychosomatic disease in, *May, p. 101
omphalocele, *February, p. 82
operative cholangiography, *March, pp. 120-127
oral contraceptive dosage (*info pl*), February, p. 138
oral drug therapy of diabetes mellitus, *April, p. 129; *May, p. 84
oxalate stones, in primary hyperoxaluria (oxalosis) (*tip*), April, p. 173
oxalosis (see *hyperoxaluria*)

■ p

pain
—methods of control, *January, pp. 109-118
—physiopathology, *January, p. 108
—psychologic factors in, *January, p. 92
—subarachnoid block in therapy, *May, p. 105
—syndromes, *January, pp. 119-121
pancreatic insufficiency (*info pl*), January, p. 125
pancreatitis
—acute (*tip*), January, p. 131
—recurrent (*tip*), May, p. 141
paraganglioma (see *carotid body tumors*)
parathyroid
—adenomas localized by esophageal cineradiography (*tip*), May, p. 143
—insufficiency, following thyroidectomy (*tip*), April, p. 179
patent ductus arteriosus, *March, p. 108
pelvic fractures, hypogastric artery ligation in (*tip*), February, p. 183
pericardiocentesis, *March, p. 132
peripheral nerve, syndromes with extracerebral malignancy, *June, p. 101
Perkins test of pulmonary function, *June, p. 78
personalities in the medical news
—Eccles, Sir John C., May, p. 33
—Engle, H. Martin, April, p. 33
—Garcia, Jose A., January, p. 33
—Goddard, James L., March, p. 33
—Larrick, George P., March, p. 33
—McNinch, Joseph H., February, p. 33
—Marston, Robert Q., April, p. 33
—Robinson, Robert J., June, p. 33
—Rouse, Milford O., May, p. 33
—Stetler, C. Joseph, February, p. 33
—Willard, William R., June, p. 33
—Witten, Carroll L., January, p. 33
pesticide problems (*ed*), January, p. 100
Peutz-Jeghers syndrome (*tip*), March, p. 179
phenformin, in diabetic therapy, *April, p. 129
pheochromocytoma, test (*tip*), March, p. 169
photochromogens, ecology and skin testing (*info pl*), April, p. 137

Pierre Robin syndrome (*tip*), April, 165
pituitary stalk section, in treatment of diabetic retinopathy (*info pl*), April, p. 135
placenta praevia, March, p. 116
placental transfusion (*tip*), February, p. 169
pleural cavity, drainage of, *January, p. 86
pleural effusion, in rupture of esophagus (*tip*), January, p. 139
pleurodynia in Coxsackie B infections (*tip*), May, p. 147
pneumonitis, aspiration, *March, p. 140
poisoning
—general treatment of, *February, p. 106
—insecticide, in children (*tip*), February, p. 173
polyposis of colon in Gardner's syndrome (*tip*), May, p. 139
porphyria (*info pl*), January, p. 126
post-exchange transfusion, deaths in erythroblastosis fetalis, *April, p. 113
postinfarction ventricular aneurysm (*tip*), May, p. 153
postmenopause hormone treatment (*info pl*), January, p. 125
postoperative hypoxemia (*tip*), February, p. 187
postpartal heart disease (*tip*), May, p. 135
postural drainage (*info pl*), May, p. 131
potassium
—deficit, clinical aspects, *June, p. 85
—relation to small bowel ulceration, May, p. 135; *June, p. 93
prednisolone, physiologic dosage (*info pl*), June, p. 121
pregnancy
—cardiovascular hemodynamics in (*tip*), January, p. 139
—exfoliative cytology during (*tip*), June, p. 159
—in Marfan syndrome (*tip*), January, p. 143
—in teen-agers, demography (*tip*), February, p. 189
—mitral valvotomy in (*tip*), May, p. 153
—testing, oral hormone diagnostic test, *January, p. 78
premature infants, recent advances in care, *June, p. 108
proctology: a rare challenge to the general practitioner, *May, p. 91
proctoscopy, *May, p. 94
progesterone therapy in the menopause, *May, p. 113
programmed instruction course on rheumatoid arthritis
—installment 1: population statistics and radiopathologic findings, January, pp. 153-174
—installment 2: patterns of joint involvement and their diagnostic significance, February, pp. 141-162
—installment 3: clinical manifestations and laboratory findings, March, pp. 149-166
—installment 4: laboratory procedures in diagnosis, April, pp. 141-161
—installment 5: course, complications, evaluative and diagnostic criteria, May, pp. 157-177
—installment 6: diagnostic criteria, June, pp. 125-140
prostatorrhea (*info pl*), June, p. 119
pseudocysts of lung due to kerosene (*tip*), February, p. 175
Pseudomonas infection (*tip*), March, p. 177
psychologic factors in backache, *January, p. 91
psychologic techniques in management of pain, *January, p. 112
psychosomatic diagnosis, *May, p. 100
psychotherapy and wart removal (*info pl*), June, p. 119
pulmonary
—contusion, diagnosis and therapy, *March, p. 137
—edema, acute, and ethacrynic acid therapy (*tip*), January, p. 133
—embolus, early x-ray sign, *February, p. 123
—histoplasmosis, roentgen diagnosis, *April, p. 118
—infarction, surfactant in (*tip*), June, p. 151
—sequestration (*tip*), January, p. 145
pulmonic stenosis, *March, p. 110
pulse, feeling the: a modern view of an ancient art, *March, pp. 78-86
pyloric stenosis (*tip*), February, p. 175

■ r

rabies immunization (*info pl*), March, p. 143
reflex sympathetic dystrophies, *January, p. 121

refractory heart failure, *February, pp. 99-104
regurgitant murmurs (*tip*), January, p. 137
reinfection tuberculosis, *May, p. 98
renal transplantation in the treatment of chronic uremia, *February, p. 133
renin, plasma levels in hypertension (*tip*), May, p. 137
requirement for esophageal bougienage, *April, p. 97
respirators, *February, p. 91
respiratory acidosis, treatment with a volume-cycled respirator, *February, p. 88
respiratory distress syndrome (hyaline membrane disease)
—assisted ventilation in (*tip*), May, p. 137
—in premature infants, *June, p. 115
—management (*tip*), January, p. 137
resuscitation, emergency, in thoracic injuries, *March, p. 129
retarded child, his parents and his physician, *April, p. 114
retinal detachment, reversible, in renal insufficiency (*tip*), May, p. 147
retinopathy, diabetic
—classification (*tip*), April, p. 183
—influence of low-fat diet (*tip*), May, p. 145
—pituitary ablation therapy (*info pl*), April, p. 135
rhizotomy, *January, pp. 116-117
roentgen diagnosis of pulmonary histoplasmosis, *April, p. 118
rubella (see *congenital rubella*)
rupture of a deep epigastric vessel, May, p. 104

■ S

Salmonella typhosa, *January, p. 95
sarcoidosis (*tip*), January, p. 145
sepsis in burns, use of gamma globulin (*tip*), April, p. 175
serotonin and carcinoid tumors (*tip*), February, p. 165
sexual symptoms in psychosomatic disturbances, *May, p. 103
SGOT (serum glutamic oxaloacetic transaminase) in myocardial infarction (*tip*), April, p. 183
snakebite (*tip*), February, p. 167
social factors in medical deprivation (*tip*), June, p. 155
special features
—employee theft and fidelity insurance, April, p. 199
—eyewitness account from Nha Trang, January, p. 191
—family physician in undergraduate medical education, February, p. 205
—grateful patient praises family general practitioner, February, p. 213
—immunizations for travel abroad, June, p. 177
—inflation forces are intensifying, April, p. 205
—inventory of specific duties to patients, January, p. 203
—maintain useful records, April, p. 211
—medical challenge in Vietnam, May, p. 193
—medical practice and public health, June, p. 185
—obstetric education of the English family doctor, March, p. 203
—physician and the 1965 drug abuse control amendments, May, p. 205
—self-protective measures, March, p. 215
—utilization review study in hospitals, June, p. 181
spinal cord, syndromes, with nonmetastatic malignancy, *June, p. 99
spine, epidural abscess, *May, p. 87
spinothalamic tractotomy, *January, p. 118
steroids (see *adrenal corticosteroids*)
stones, calcium (*info pl*), May, p. 129
straight back syndrome (*tip*), February, p. 171
strangulation obstruction in germ-free dogs (*tip*), January, p. 141
streptococci, transportation of cultures of beta-hemolytic group (*tip*), June, p. 151
stroke prevention, role of anticoagulant therapy (*tip*), April, p. 167
strokes (see *cerebrovascular insufficiency*)
subarachnoid arterial anastomoses, *April, p. 81
subarachnoid block with alcohol, *May, p. 105
subclavian steal syndrome, *April, p. 86
sudden death in infancy (*tip*), May, p. 149
suicide, the family physician and the problem of, *March, pp. 87-93

sulfonylureas, in diabetic therapy, *April, p. 129
surfactant, production in lung infarction (*tip*), June, p. 151
surgical risk and ischemic heart disease (*tip*), April, p. 165
sympathectomy, *January, p. 118
synthetic foods, deficiency states in infants (*tip*), January, p. 135
